THEY'RE
BACK

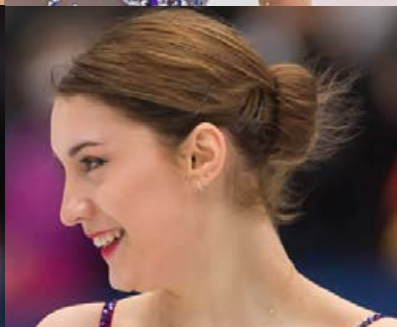

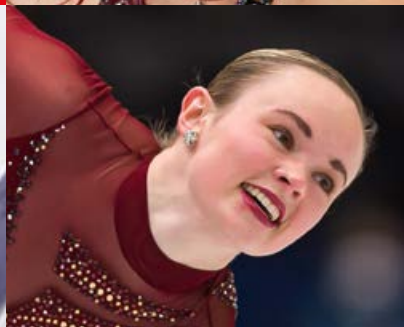

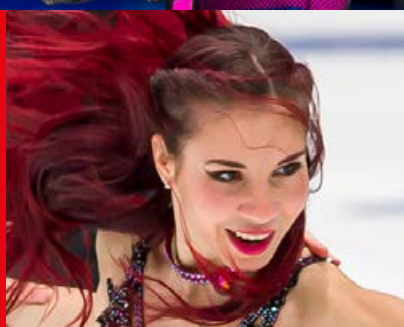

TOGETHER

**WE
GET THEM
READY**

TOGETHER

**WE ARE
READY**

Why Edea

We think differently,
we start with the skater
and design for performance.
Edea means...

Greater Feel

Skating is about feel.
Edea designed
to feel the edges.

Innovation

Skating is
about new.
Edea means
innovation.

Faster to perform

Skating is about performance.
Edea designed with shorter
break-in time.

Lightweight

Skating is
about lightness.
Edea think and
design light.

Comfort

Skating is about
ice time. Step
into Edea and
feel the hug.

Sharper style

Skating is about style.
Edea designed with
Italian style.

Skating is a sport about expression, where art meets performance.
It is technique and style. Style is what Italians do.
Step into the rink ahead of your rivals.

Anti-Shock System

PERFORM LONGER, BE SAFER

The problem

When landing, a force up to 8 times your weight sends shockwaves through your body. Even without jumps, ice chatter creates mini-stresses, both of these creates negative energies that can lead to injuries.

The solution

Edea's Anti-Shock System combines Noene to disperse and Poron to absorb these negative energies. Anti-Shock is integrated into the Piano and is available in Impact Insoles and Noene Anti-Shock Undersoles.

Edea Anti-Shock means

- Minimized impact shock protecting you from potential injury
- Absorbed ice chatter for smoother glide and a more solid base
- Increased stability on landings for quicker transitions and jumps
- Reduced strain on ankles, knees, hips and the back

Piano

Smoother skating
Dual layer anti-shock system reduces impact while increasing stability

Greater thrust
New lateral support for quicker, increased power transfer

More control
Improved heel pocket and extra tongue tabs give an improved foot position for better feel and quicker movement

More comfort
Longer boot collar for greater movement range

Fresh skates
Micro-perforated air tech lining for super quick drying

SUPPORT
EXTRA STRONG

PERFORMANCE

E.Spinner

NEW PROFILE

Designed to mimic a blade to give it a more realistic feel. The new profile reduces friction and increase the feel of being on real ice. The taller rocker and blade profile combine to move the spinning point and create the perfect off-ice partner.

TAKE OFF JUMPS BANDS

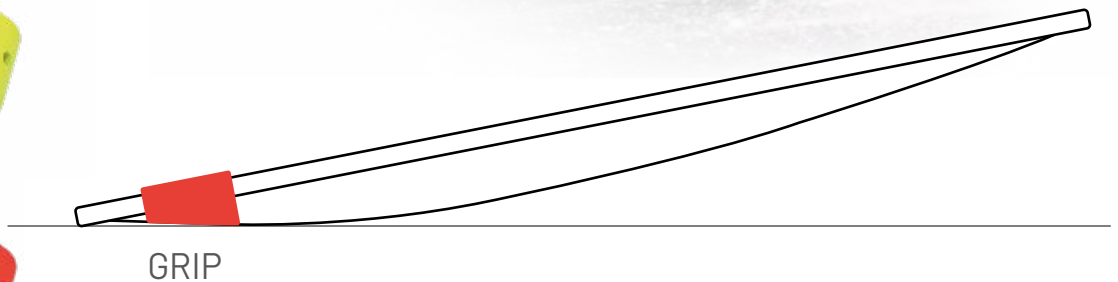

The special bands are to practice take offs. Two bands are included, a softer yellow one for singles and the red for doubles or triples. NOTE: Use without bands for spin practice.

SOFT BAND JUMPS

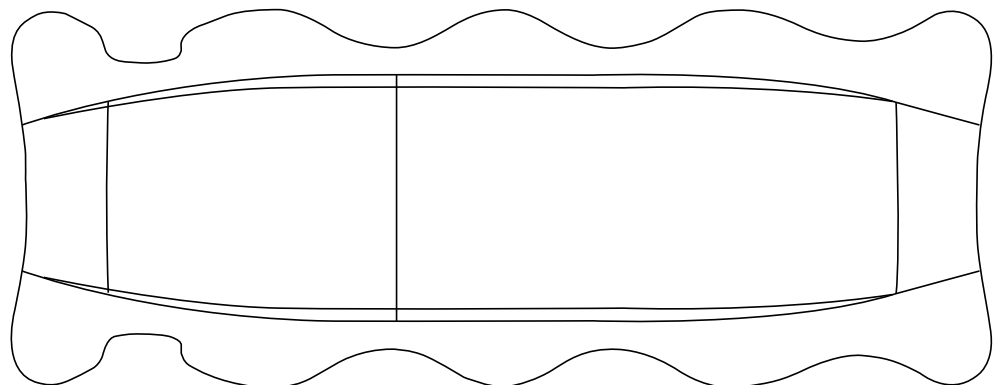

HARD BAND JUMPS

THE NEW WAVE DESIGN

Makes it easier to practise as the platform is wider.

EDEA
ANTI-SHOCK SKATE
UNDERSOLE
LESS PAIN MORE GAIN

Edea antishock undersole by Noene is specifically designed to improve skating by reducing impact shock and so improve performance.

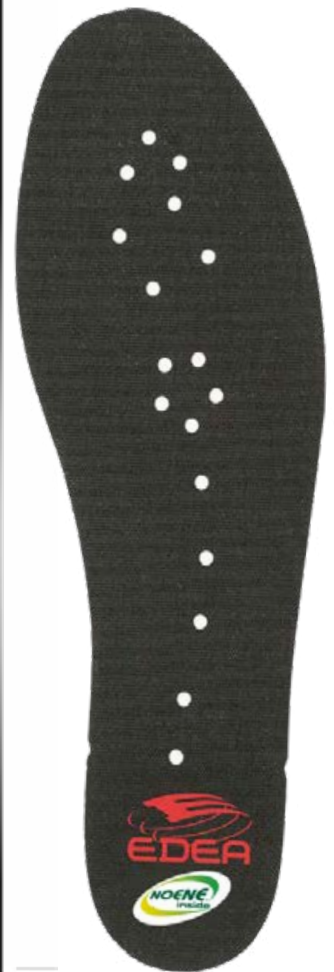

NOENE
 inside

Noene is scientifically proven to reduce shock and impact by redirecting and dispersing the energy. Our 1mm layer provides optimal performance benefit and maximum comfort while being lightweight and ventilated.

- reduces fatigue
- reduces impact shock
- reduces injury risk

maximise your performance

ODOR ABSORBERS

Edea innovation makes us better and different. This means we must be sized, fitted, shaped laced and mounted 'the edea way'

Sizing

THE PERFECT SIZE

In order to get the correct length you need to use the Edea measuring device.

THE PERFECT FIT

90% of feet fit our C or standard width. Edea stretchers make the final adjustment to give the perfect custom fit. Non-standard widths are available on special request (B-narrow; D-wide; E-extrawide).

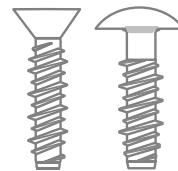

Mounting

EDEA boots have thinner technical soles and need special tools and hi-low screws for mounting the blade.

SET OF 100 HI-LOW SCREWS

Flat Round

Edea hi-lo screws are dual helix to increase hold. Do not use any other screw.

ONE DRILL BIT EXTENSION 2,5 MM.

Specially measured drill bit holder ensures accurate depth of holes. 2,5mm drill bits are used for EDEA Hi-Low screws.

PRE-CUT FILLERS

Essential for repositioning blades. Each pack includes 25x2,5mm pre-cut carbon bars.

Mounting stand

Stands for quick and precise blade mounting are practical and portable.
